Functional Safety for Machinery

# Tara Venkatesan

Robotics Engineer at Orbit Mechatronics | Mobile manipulation  
Pune, Maharashtra, India

## Summary

I build software and controls for mobile robots that pick, carry and place things in busy spaces. I mentor students in a weekend robotics club.

## Experience

### Orbit Mechatronics

#### Robotics Engineer

March 2023 - Present (3 years 8 months)

Pune, India

Lead the manipulation stack for a mobile picking robot: grasp planning, arm control and the ROS interfaces to perception.

### Fernhill Automation

3 years 2 months

#### Controls Engineer

July 2020 - February 2023 (2 years 8 months)

Chennai, India

Designed and tuned motion controllers for conveyor and gantry systems.

### Engineering Intern

January 2020 - June 2020 (6 months)

Built a vision-based part counter for a packaging line.

## Education

### Deccan Institute of Engineering

Bachelor of Technology - BTech, Mechatronics Engineering · (2016 - 2020)
